RBTECH Electronics Pvt. Ltd.

## We Are...

We are an Electronic Enterprise with a vast experience of over fifteen years serving both private and public sectors. The company moved further to expand its spheres in trading of Electronic Components Segment, under the name of RBTECH Electronics Pvt. Ltd.

We deal in Fairchild ic's, Mosfets, SMD Capacitors, Resistors, Samsung LEDs, Semiconductors and more.

At RBtech electronics, our biggest strengths are our delivery capabilities, allowing us to give a large range of products to our customers. Having started with electronic ballasts for integrated CFLs, today the company has large portfolio of various types of components used in LED as a part and full.

The vision of becoming a world class leader and innovator in distribution and marketing of all types of active and passive components including the advanced semi-conductors, displays, modules and other raw materials from various reputed manufacturers which are spread all over the world, we specialize in full electronic components range in entertainment, telecom, and industrial electronics.

We know it's about providing service to our clients with real value, not with big financial overheads! That's why we don't look for the quick fix, but focus on long - term relationships.

The services we deliver is always measurable in terms of dedication and believe to serve our clients to our optimum.

Ultimately, our success is to make your business successful.

We have also overcome the market flaws and disadvantages and added them as our strength like Shortages of components with long lifetime, MIS Planning, Long Delivery Time, Inventory Cost etc. Our positive approach towards our work is our biggest strength.

Ultimately, our success is to make **your business successful**.

We have also overcome the market flaws and disadvantages and added them as our strength.

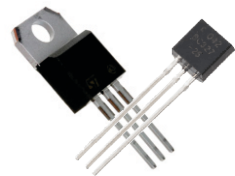

Our positive approach towards our work is our biggest strength.

## Our Other Productline...

IC - Integrated Circuits

Transistors

Micro Controllers

MOSFET

Relays

Connectors

Capacitors

Chip Resistance

Chip Capacitors

LED - Light Emitting Diodes
